

COVID-19 Tanks Market Stall Holder Checklist

- Stay home if unwell
- Consider the 1.5m social distancing rule when setting up stall, where possible mark an entry & exit
- Social distancing of 1.5m is to continue inside marquee, remind customers especially if a queue forms
- Ensure you have hand sanitiser available for customers
- Prior to the market opening - full clean of stall, equipment & products
- Clean the high touch areas frequently; eg. eftpos machines, tables with detergent or disinfectant (every hour is suggested)
- Clearly label items to reduce the need for customers to handle the products or produce
- Cashless sales are encouraged
- Encourage customer to pack & use their own bags
- Samples to be provided in individual serves or clean applicators

Additional Checklist for food vendors

- Hand washing facilities must be part of the stall with running water, soap & paper towels for yourself & staff to access
- Take away food only, no seating arrangements
- No self-service of condiments, cutlery, napkins or communal water station
- Do not use customers re-usable cup or containers
- Where practical set up different areas for ordering and collection / separate entry & exit paths
